

# Special Olympics Unified Champion Schools

District 281 is Launching an Exciting Unified Movement that Will Engage and Greatly Impact Our Schools and Communities!

**The Program:** Special Olympics Unified Schools working with the Best Buddies program will provide opportunities for students with and without intellectual disabilities to develop meaningful relationships, help spread acceptance and ensure everyone feels included and welcome in their school through involvement in a Unified Club.

## What is a Unified Club?

Unified Clubs are designed to empower youth and youth leaders to promote community change and social impact through a variety of inclusive athletic, social, and recreational activities held throughout the year. In school and after school opportunities will be announced. The Unified Club provides opportunities to engage, accept, respect, and above all to have FUN TOGETHER!

## Who Can Participate?

ALL HIGH SCHOOL STUDENTS interested in attending school events, social activities, and playing sports in an inclusive setting (students with and without intellectual disabilities) may participate in activities of their choice.

## Live Unified! Become Part of this Global Movement!
